The attached list is a summary of the publications covering equipment supplied by your company to the plants indicated. In order to comply with the plant and/or NRC guidelines, we request that you confirm that these publications are correct, complete and the latest revision required to support the installed equipment. If a newer revision exists, please send a copy (if available, please send documents in electronic form) so that we may reproduce and distribute to the applicable plants.

- Please use the End Code List provided below and mark each publication with the appropriate code. You may use multiple End Codes per publication if appropriate.
- Please sign the form in the space provided and return all pages to the above address or fax or Email.

End Codes: 5

- 0 Publication listed is current and applicable.
- 00 Publication is not the most current document available, new revision will be sent
- 2 Information not available.
- 3 It is your company's policy that publications are not subject to revision and should be used for the life of the installed equipment.
- 6 Obsolete equipment – vendor no longer manufactures this equipment in the same fit, form and function.
- 8 Not enough information listed to verify.
- 9 Publication may be revised, but the revision provided with the equipment at time of purchase should be used for the life of the installed equipment.
- 10 This publication is a catalog/product bulletin and is the only information available.
- 11 Service Advisory Letter.
- 12 Parts List.
